

# Become a Market Disrupter with SAP Billing Revenue and Innovation Management

Customers demand flexible models for buying products and services today. Your business needs a complete solution with end-to-end visibility and connectivity, from commerce and solution bundling to billing, invoicing and collections. SAP Billing and Revenue Management makes that possible. With our deep financial acumen, Bramasol creates scalable, flexible and dynamic solutions for the Digital Solutions Economy.

## Reducing Costs, Increasing Value

No point solution provides the visibility needed to maintain and drive today's high-speed economy. Businesses have to deliver offers quickly with real-time testing and end-to-end visibility and need a platform to manage it all. SAP Billing and Revenue Management handles everything from the initial offering to bundling, pricing, invoicing and charging. Bramasol finds the perfect fit for each organization, whether evaluating the full suite or individual solutions like Solution Order Management or Convergent Invoicing. Our insight and experience can help you increase revenue and efficiency, and reduce the time to market.

### Reduction in Time-to-Market

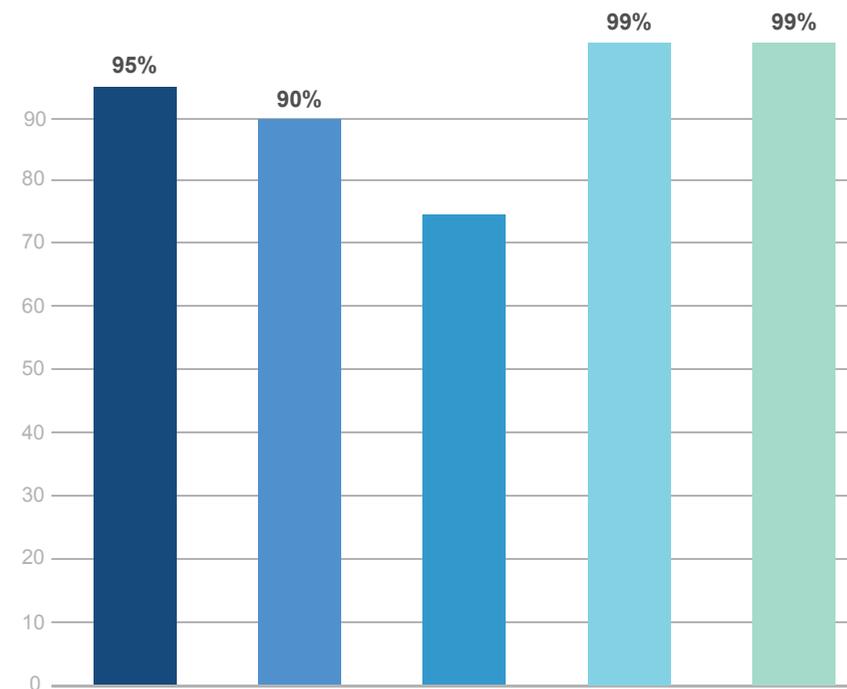

Decreasing introduction of new pricing and service offers from 6-8 months to 1-2 weeks

### Reduction in Pricing & Offer Management

Enabling Marketing and Sales teams to launch and update pricing in hours, not weeks

### Decrease in Billing & Collection Costs

Optimizing collections and disputes to decrease costs to a percentage of revenue

### Reduction in Revenue Leakage

Automating systems to quickly find revenue losses related to limited billing and CRM solutions

### Reduction in IT Expenditures

Consolidating solutions and platforms to a single offering reduces costs to a percentage of revenue
